454CKD [—9-A

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI AJIT KUMAR PANJA): (a) to (c) After India's nuclear tests in May 1998, USA, Japan, Canada, Germany, Netherlands, Sweden, Norway, Denmark, Switzerland and Australia imposed certain restrictive economic measures against India. The measures mostly related to developmental assistance or concessional loans. Some of these countries have variously exempted assistance related to humanitarian programmes, poverty alleviation, food and basic human needs from those measures. While humanitarian and other ongoing projects have not been generally affected, funding for some other projects has been held up as a result of the restrictive measures. It would not be possible to quantify the commercial and economic impact of these measures because of their changing situation.

USA has subsequently removed some of the restrictive economic measures against India.

(b) The Government continues to be engaged in dialogue with key interlocutors at various levels with regard to the lifting of the restrictive economic measures.
